

# WORLD ENERGY CONSUMPTION DATA. ANALYST- A.K.ALABI.

242

Total Countries

Total Oil production

7.62M

Total Gas Production

3.69M

Total Coal Production

5.01M

total Gas Consumption

3.44M

Total Biofuel Consumption

32.79K

70.57K

Total Renewable Consumption

Electricity generated

1.85M

Total hydro Consumption

840.00K

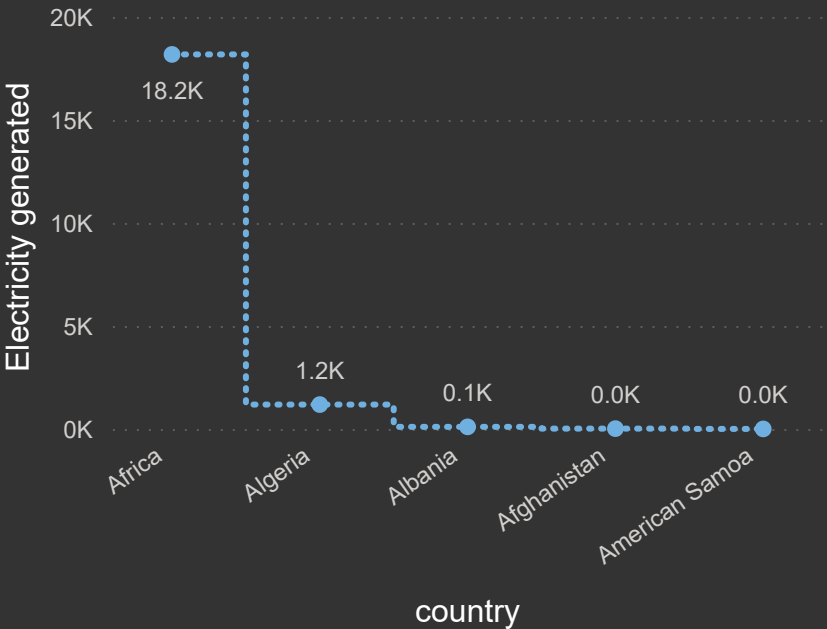

Total energy per Capital

145.40K

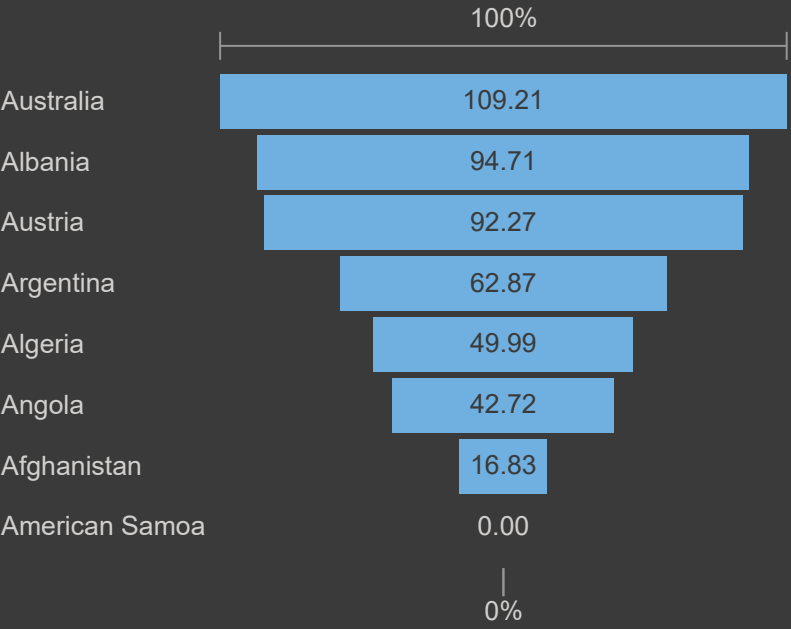

Total Energy per GDP

12.68K

Electricity generated by country by 5 Countries

Total Energy per GDP of 8 countries

Total Renewable Consumption by Top 10 countries.
